LEAVING RICHMOND FOR  
MAYSVILLE.

(Richmond, Va., Times-Dispatch  
April 12.)

Mr. and Mrs. Bruce D. Core, of 2014  
Park avenue, will leave Richmond this  
week for Maysville, Ky., the former  
home of Mrs. Core, where they will re-  
side temporarily during Mr. Core's  
study of law. Both are prominently  
related in Virginia and Kentucky. Mrs.  
T. Gordon Gilmore, mother of the bride,  
who has been here with her daughter  
since last fall, will accompany them to  
Kentucky.

LET UNCLE SAM  
GIVE YOU THE FACTS

Government reports show the steady  
output of coal during the last few  
years has made the dealers push for  
wider markets. We are going to get  
more trade—your trade—by giving  
you a greater value for your money.  
You will never get out of debt unless  
you buy wisely.

## CABINET MANTELS

The Ladies are now thinking of house cleaning and just before you begin  
that work get your improvements made. We will suggest a Cabinet Mantel. If  
you only knew how cheap you could get a Cabinet Mantel there would be only a  
few homes without them. We guarantee to sell you a Cabinet Mantel as cheap as  
you can get one anywhere in the State. Come to our office and let us show you  
and give you some prices.

## The New Edison Diamond Point Disc Phonograph

Shown  
at **J. T. Kackley & Co.'s**  
ITS FEATURES—No needles to change. Perfect tone. Automatic  
stop. A new tone modifier, adjusted by a simple touch, gives any de-  
gree of softness or loudness of tone. All other records can be used.  
Every sound, syllable and word is perfectly distinct. In singing,  
the human voice is reproduced without any squeaky mechanical defects.  
It seems the singer is before you. In instrumental music, every instru-  
ment, in solo or combination, is absolutely reproduced. Keep your old  
records; they will sound better on the new Edison, better than they ever  
sounded to you before on any other instrument. Come in and hear them.

**WILL HAVE A CIVIC GARDEN.**

The plot of ground just East of Lime-  
stone bridge is being cleared prepara-  
tory to making a civic garden in all of  
its beauty. It is a good thing for the  
city. Will the boys and girls rally to  
it, or will the would-be gardeners come  
and take lessons.

May it be an incentive to others who  
have vacant and ill-looking plots of  
ground to make them beautiful. Mays-  
ville is surrounded by beautiful scenery  
and a little energy on the part of her  
citizens can make the city just as beau-  
tiful.

### DR. FLEMING'S ESTATE

In Litigation—Codicil to Will Set Aside  
And Case Will Be Taken To Court  
of Appeals.

In the suit of Mrs. Pattie Fleming  
vs. the Executor of Dr. John Fleming,  
deceased, which was tried in the Mason  
Circuit Court last week a verdict was  
reached by the jury Saturday by which  
the codicil to the will was set aside.  
By this verdict the estate which is  
estimated at \$15,000 to \$20,000 will be  
equally divided between Mrs. Pattie  
Fleming, of this city, and Mrs. Mary  
Brent.

Under the will as it stood, Mrs. Brent  
was given all the real estate and Mrs.  
Fleming a quantity of bonds which  
proved to be worth only about 20c on  
the dollar.

The attorneys representing the ex-  
ecutor say the case will be taken to the  
Court of Appeals. Messrs. John P. Mc-  
Cartney, of this city, was employed to  
represent the Executor and Bright and  
Grannis the plaintiff.—Fleming Gazette.

## D. HECHINGER & CO.

The Biggest and Best Clothing and Shoe Store in Maysville.

**N**OTWITHSTANDING THE INCLEMENT WEATHER DURING THE WEEK PRE-  
ceding Easter, we believe our merchants enjoyed a very fine business the latter part of  
last week. Ours was beyond expectation. "There is a good reason for it." Our Young  
Men's and Children's Suits are way beyond comparison to what you find elsewhere. The proof of  
this assertion is that many of our patron's who looked elsewhere made this statement to us.

Parents who have not yet provided for the Youngsters will find it advantageous to investigate our line of  
Children's and Boys' Suits. We are selling and "selling lots of them," a most excellent suit at \$1.50, fully worth  
\$5. Our pure worsted blue serge Knickerbocker Suits that we sell for \$5 is a wonderful bargain. It's just about  
the price that the average merchants pay for them.

Our \$20, \$22.50 and \$25 Young Men's and Men's Suits are the productions of the best custom Manufacturers  
land. That these garments are appreciated is evidenced by the number of Suits we are selling.

### SEE THEM IN OUR WINDOWS

Blue Serge Suits are just as popular as ever. During our Mr. D. Hechinger's Eastern visit he secured a  
number of blue serge suits at a price that enables us to sell them at \$10 flat. They are worth and sell in most  
stores at \$15. Ask our clerks to show you this suit.

Our Men's and Boys' Shoes, "you know," are the best in town. Every pair guaranteed to satisfy.

The people we buy our hats from, mainly the "Stetson," tell us that we sell as many Hats as some of the  
leading exclusive Hat Houses in large cities. "Easily accounted." Here you always find the newest in the  
market.

**D. HECHINGER & CO.**

## A RUG SPECIAL!

The Rugs are woven with best worsted yarns, the dyes are dependable, and with no center seam  
the wearing is sure to be satisfactory. The patterns are exact reproductions of the real French Wil-  
tons. Size 9 by 12 feet. Specially priced at \$14.75.

### Dresses That Appeal to Both Mothers and Daughters

To the 6 to 14-year-old girls, because they are so absolutely pretty. They are exactly the kind of frock  
a girl wants. The dainty embroidery, the pretty plaids, the good looking styles, the touches of embroi-  
dery, the frills all win a girl's heart.

The mothers are more practical. "They say the dresses are so well made, the colors fast, the styles sen-  
sible and in good taste, the hems deep enough to be let down." According to size and quality 50c to \$1.98.

**OUR DRESS SILKS** are not chance selections picked up hurriedly in the New York mar-  
kets, on the contrary they are the result of careful orders placed  
months ago. Taffetas, Crepes, Charmeuse, Poplin, Roman Stripes, Moire, Cote de Cheval, Cascade, Habutai  
and many others. 39c to \$2 yard.

## FEDERAL INCOME AND EXPENDITURES.

It is being remarked that the income tax is making many people take notice of the tremendous and increasing cost of the Federal government. There is also a developing apprehension that the income tax is only the commencement of the policy of direct taxation. It is now being recognized that the income tax will not meet the deficiency caused by the new tariff law. What next? With industrial and business depression upon us, the question is disquieting.—Ironton Register.

## TOBACCO COURSE.

Owing to the increased importance of tobacco growing in Kentucky the college of agriculture of the State university, in connection with the Kentucky agricultural experiment station, will establish next Spring a special course of instruction in tobacco raising, which will be free to all persons living in the State. The course will cover every step in bringing tobacco to its finished state, from the preparation of the seed bed to the stripping and grading of the cured leaf.

The course will begin the first of March in each year, with practical instruction in the preparation of the seed bed, seed testing, cleansing of tobacco seed and the preparation of the soil.

Each student will be given a small tract for an experimental patch of tobacco, and at the end of the season his crop will be graded by an expert tobacco buyer. The first three months of the course will be devoted to the earlier life of the tobacco plant, the second three months to its cultivation and harvest and methods of fighting disease and insects, and the third three months to its handling, curing, stripping and marketing.

Let the college also teach the young men how they can get a fair price for their tobacco without holding it in the barns for two months after the Christmas holidays.—Owensboro Messenger.

## KENTUCKY AS A COAL PRODUCING STATE.

So far as the records of early coal production in the United States are to be accepted Kentucky, according to E. W. Parker, of the United States Geological Survey, was the third State to enter the list of regular coal producers. One of the early reports of the Kentucky Geological Survey (published in 1838) states that the first coal produced in the State was mined in 1827 on "the right side of the (Cumberland) river below the mouth of Laurel." This was evidently from either Laurel or Pulaski County, but the exact location is not definitely stated.

The same report says that in 1828 five boatloads of coal from these mines arrived at Nashville, and that from 1829 to 1834 probably from twenty-five to thirty-five boatloads were sent out each year. The boatloads averaged about 1,750 bushels, or sixty-six tons each. From 1834 to 1837 the total shipments were from seventy-five to 100 boatloads, or about 3,500 bushels annually. The coal was for the most part consumed in the salt works and iron furnaces convenient to the rivers which furnished the only means of transportation.

From the best information obtainable it seems that the production of the State from 1829 to 1835 ranged from 2,000 to 6,000 tons a year. The United States census for 1840 gives the total production in the State as 23,527 short tons. By 1850, according to the census for that year, the production amounted to 285,760 short tons. Operations were necessarily somewhat interrupted during the Civil War, but since 1870, after the State had begun to recover from the effects of the war, the production has increased rapidly.

President Wilson says he is dubious about the existence of hard times. With an annual salary of \$75,000, and \$25,000 extra for traveling expenses, the times may not seem particularly hard to him.

Some months ago, the United States Supreme Court decided that the selling price of a manufactured article could not be fixed by the manufacturer; but in England the courts have decided that the manufacturer has that right.

Increasing costs of production and continued severity in competition, it is reported, have restricted profits in many quarters of the underwear industry. This is one of the elements credited in many parts of the trade for the decision of the managements of two New York mills to suspend operations, at least for a time. The Troy Knitting Company of Troy has ceased the production of underwear, not having taken any full orders. The Capron Knitting Company, Utica, will complete its present orders, while its future is dependent upon further action of the stockholders.

Louisiana continues to exert every effort, except voting right, to prevent the enforcement of the law, which partly went into effect March 1, putting sugar on the free list. Of course, when the law goes into effect to the full extent it will wipe out the sugar industry in Louisiana, with its millions of dollars of invested capital. But the beet sugar industry of the North will be a much greater sufferer. The representatives of Louisiana voted to impose free trade on all Northern products but sought to save the cane sugar, rice, peanut and other Southern industries. They failed in the matter of sugar. But they supported the Free Trade party in everything else, and have voted for Free Trade for the rest of the country right along. Will they continue to do so?

Persia offers a lesson on the alleged advantage of low cost of living. The Consul-General of that country in New York is quoted by the Washington Post as saying: "You can buy a cow in Persia for \$3, a big Thanksgiving turkey for five cents, and chickens for two cents apiece; eggs sell for two cents a dozen, and other food supplies are correspondingly cheap." Why? For the reason that such natural products cannot be exported for lack of roads and other facilities. If the owner cannot consume all he raises he has no market. But the Consul-General admits that wages range from five cents to twenty-five cents a day, and only experts get the latter rate. If you want to buy clothes and other things such as are used in this country prices are much higher than they are here.

## AVOID SUBSTITUTES.

They were enjoying a motor ride and had just entered a country road.

"May I kiss your hand?" he asked, a little confusedly. She removed her veil.

"No," she replied; "I have my gloves on."

## HIS WISH CAME TRUE.

The Jewish peddler rapped timidly at the kitchen door. Mrs. Kelly, angry at being interrupted in her washing thing open the door, and glowered at him.

"Did yez wish to see me?" she demanded, in threatening tones.

The peddler backed off the steps, and said: "Well, if I did, I got my wish, dank you."

## DOCTOR SAID HE HAD DROPSY

Some time ago I had an attack of grippe which finally settled in my kidneys and bladder. I doctored with the doctors and they claimed I had dropsy. I tried other remedies and got no relief from any of them. My condition was such that I was unable to work for about two months and the annoying symptoms caused me a great deal of trouble and pain. I was hardly able to turn over in bed. Seeing one of your Almanacs, I decided to give Dr. Kilmer's Swamp-Root a trial and after taking several bottles was able to resume my work again. I cannot say too much in praise of your Swamp-Root as the results in my case were truly wonderful.

Yours very truly,

## THE PRACTICAL PHILOSOPHER.

(American Machinist.)

The three essential aims in machine-tool design are: productivity, durability and adaptability.

It is much more difficult to ascertain principles than to discover facts, but the establishment of correct principles helps forward progress as nothing else can do.

Rust on iron or steel may be easily removed if the metal is boiled in a hot caustic soda or hot caustic-potash solution. This softens the rust that it can be easily removed by the acid pickle.

In picking castings the best mixture has been found in one containing from 5 to 10 per cent. of sulphuric acid; this mixture has much greater effect than one containing a larger percentage of the acid.

In deciding upon the best carburizing temperature, the effect of heat of the size of grain in the steel must be considered. This, as is well known, is a decided action, the grain coarsening rapidly with increasing temperatures.

The history of civilization from our perhaps rather prosaic point of view can be characterized as a steady march along the road of increased productivity. Constructive management really means "making the most of twenty-four hours a day."

It has long been recognized among good machine designers that there is a close relation between function and appearance. Most of them are aware that the master a tool or a machine is to be correctly proportioned for the work it is to perform, the more balanced are its proportions and therefore the more pleasing it is to the eye.

## RICH ONES

Move To Washington To Escape Payment of Taxes on Diamonds, Says Congressman When Defending Bill.

Washington.—Defending his bill for the taxation of diamonds and all personal property in the District of Columbia, which now escapes taxation, Representative Prouty, Iowa, declared that Washington was the "tax escape haven" of the millionaires of the country.

"You cannot go to an entertainment in this city," he declared, "without having your eyes fairly blinded with the glitter of diamonds and royal gems."

Mr. Prouty declared that wealthy citizens who take up their residence in Washington come because of the laws of the District of Columbia, which on able them to escape taxes on "their diamonds, their immensely valuable collections of articles in their homes, their stocks and bonds and other intangible investments."

The novelty of being able to purchase anything one wants soon passes, because what people most seek can not be bought with money.—John D. Rockefeller.

Plans are being perfected in Washington for beginning work at an early date on an immense flood reclamation project in China. It is being fostered by the American Red Cross Society.

#### ENDOWMENT OF \$500,000

Is Given To Choir, That Financier May Be Elected Member.

New York.—Frederick G. Bourne, financier and yachtsman, has given \$500,000 for the endowment of the choir school of the Cathedral of St. John the Divine on condition that he be selected a member of the choir.

In explanation of the unique condition of the gift, Mr. Bourne said that he had sung in other choirs since he was 14 years old and was particularly anxious to become a member of the Cathedral choir.

Mr. Bourne was elected unanimously.

#### SAVES DAUGHTER

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months."

I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health.

If you suffer from any of the ailments peculiar to women, get a bottle of Cardui today. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years.

#### BRADLEY IS DUE

Within Next Two Weeks to Enter Race To Succeed Himself.

Washington.—Senator William O. Bradley, of Kentucky, is expected within the next 10 days or two weeks to enter the race for the United States Senatorship to succeed himself. His term will expire March 4 next, and his successor will be chosen by popular election at the polls next November.

Senator Bradley has been receiving a good many letters on the subject from Kentucky and it is understood his friends have about persuaded him it is his duty to run, as they believe he can pull more votes than any other Republican who could be nominated.

They rely upon the fact that he always has had a rather formidable Democratic following in the State. His health has not been good of late and if he enters the race he will not attempt an extensive speaking campaign.

Mrs. Clarence Wood entertained the "500 Club" on Saturday afternoon with a very delightful reception and luncheon. The large drawing room was filled with bright faced ladies in their charming Spring toilettes. Mrs. Wood having doubled the pleasure of the usual town gathering by adding to the list an unusual number of ladies from the county. The ladies receiving with Mrs. Wood were Mrs. Lucien Mather, Mrs. Phoebe Forman, Mrs. Taylor, Mrs. Robert Owens, and Mrs. Hattie Wood. Mrs. Henry Groggin won the prize for the largest score made at the fourteen tables.

Mrs. Allen the general prize, Miss Eleanor Wood, the young daughter of the hostess, presided at the piano.

Mr. Donald Wood, at home from college for the Easter vacation, played with the ladies, and beautiful Miss Wood of Los Angeles, added her charming presence to the pleasure of the flowers and music, making us forget that outside were clouds and rain.

#### INITIATIVE AN ASSET FOR PUBLIC AND UTILITIES

It Would Be Lacking Under Municipal Ownership, Declares Writer.

In a discussion of the part played by electric railways in the building up of the communities through which they operate, Aern says:

What is displayed in the various plans for the promotion of traffic and the development of territory is initiative. These men are departing from the mere operation of public utilities in their efforts to promote the interests of their communities. Their problem is the creation of business. It is not sufficient that they should operate their roads safely, economically and well. They have a further duty to perform to their stockholders and that is the creation of profits in order that a return may be paid to the investors in the road's securities.

And accordingly they are applying their brains and experience to the creation of business. Every dollar's worth of business so created redounds to the benefit of the communities the road serve and these men are, as the vast majority of railway men in this country have always been, Empire builders. It is unnecessary to inquire whether they are actuated by entirely altruistic motives, because the interests of the transportation lines and the country are so intertwined economically that what benefits one benefits the other. It is enough to know that there is furnished under this system of private ownership an incentive which places at the disposal of the country the ability of men capable of wide vision, of prompt action and having great resources at their command.

Under a system of public ownership this incentive would be lacking. The operator of a transportation line would be an operator and nothing more. He would be fulfilling his entire duty, if he furnished as good service as possible under the limitations placed upon him by the enactments of legislative bodies, entirely unacquainted with transportation questions and having but an academic interest in the question of profitable or unprofitable operation.

There would be no reason for initiative. Statistics would be the basis of regulation and that necessary freedom from hard and fast rules, would be missing. There would be no profit in initiative and as soon as the prospect of reward is destroyed, all human effort seeks a dead level, which at the end means stagnation.

#### FINE BOY, HE DOESN'T THINK.

(Fulton News.)

A few days ago two young men walked into Cole's gallery and sat for a picture. Before taking their seat they asked if any objection would be made to them holding a pistol as they posed. Mr. Cole did not object; then he was asked if they could expose a bottle of red liquor in the photo, but Mr. Cole drew the line on the liquor. The two youngsters seemed to be amused and loaded a regular Jesse James fashion.

#### EAT AND SLEEP REGULARLY

Injunction of Aged Physician To Those Wishing To Live Long.

Freemont, Ohio.—Dr. Peter Benagrand, said to have been the oldest physician in the United States and the oldest resident in Sandusky County, died at his home here. He enjoyed good health until a short time before his death.

He was born in Detroit August 26, 1814, and Fremont was planning a big celebration in honor of the centennial of his birth. He had lived here 91 years, and for more than 70 years practiced medicine.

During the Civil War Dr. Benagrand was a regimental surgeon and was one of the Government's oldest pensioners. His recipe for longevity was, "Eat regularly, sleep regularly and exercise with due discretion."

#### ROME'S BIRTHDAY

"Eternal City" Will Be 2,667 Years Old April 21.

Rome.—Rome will celebrate her 2667th birthday on April 21st with a general hoisting of flags and illumination, but there will be no revival this year of the celebrated Feast of the Century, the ancient ceremony, which was last attempted in 1900, when the Forum and Patinae rang, as it did twenty centuries before, with the invocation by Horace to the "Alma Sol" in which he asserted that the sun in its passage around the world would see no such sight as Rome. Although the year of Rome's birthday is officially recognized as 750 B. C., recent archaeological discoveries indicate that it should be moved back many centuries.

Another celebration now in progress is in commemoration of the work of Bramante, called "the Prince of Modern Architecture," who died in 1514.

Bramante's work is centered all over Italy and Rome but his most celebrated edifices here are the Palace of the Cancelleria and the Courts of San Damaso and the Belvedere at the Vatican. His was the original design for the present St. Peter's, but both he and his patron, Pope Julius II died soon after the building was begun. Had he lived, Michael Angelo's cupola, considered a marvel of architecture, would not have been realized.

\$12,000,000 FOR FARMERS.

R. V. Haymaker, of Delaware County, Ohio, whose rural credit plan for farmers was discussed recently in Farm and Prospects, has been continuing his investigation as to facts and in the current issue of Farm and Prospects the following results are recorded: "In the State of Ohio, over twelve million dollars are now out on loans to farmers from building and loan associations. This is over sixteen per cent of all the farm loans in the State. Only six counties do not have these associations, which are virtually farmers' land banks. The plan is extremely well developed, is now twenty years old, and, in Mr. Haymaker's opinion, needs leadership more than any legislation."

## SUNDAY SCHOOL INSTITUTE

Mr. Joplin, Miss Dance, Mr. Vaughn and Others Discuss the Work From Every Viewpoint.

The Sunday night's session was held at the Second M. E. Church South. Dr. Joplin spoke on Stewardship. The address was replete with good things, but the leading thought was tithing.

Mr. Vaughn followed, speaking upon The Sunday School Teacher. Laying down the following:

1. He should be a Christian in experience and practice.
  2. A church member.
  3. A Bible student.
  4. A friend.
  5. Should be a teacher.
  6. Learn to know himself.
  7. Learn to know his pupils.
  8. Know the Bible.
- The following laws:
1. The law of adaptation.
  2. The law of co-operation.
  3. The law of association.
  4. Law of repetition.
  5. Law of variety.

The Third session of the Sunday School Institute was held at the First Presbyterian Church Monday afternoon. General organization of the Sunday School was discussed by Rev. Joplin.

The following are his outlines:

1. Elementary division.
2. Secondary division.
3. Junior division.
4. Senior division.
5. Intermediate.
6. Junior.
7. Adult.

1. Organization.

2. Home department.

Teacher Training class.

General Superintendent.

Secretary of the Sunday School.

Secretaries of Divisions.

Treasurers; Pianists; Librarians; Assistant Superintendents.

Teachers of Classes, Assistant Teachers; Committees: Missionary, Temperance, Purity, Special Days, On Organ.

Scientific Wide Awake Activities; Visitation, Workers' Conference; Pastor, Superintendent, Teachers.

Miss Dance followed. She first gave this invitation for tomorrow afternoon: Special invitation to MOTHERS AND ELEMENTARY TEACHERS TO BE PRESENT.

Elementary Division.

Take care of everybody under the ten age.

1. Cradle Roll—from birth to 3 years.

2. Beginners—from 3 to 6 years.

3. Primary—from 6 to 9 years.

4. Junior—from 9 to 12 years.

5. Senior—from 12 to 18 years.

Have them learn to love God's house. Hang pictures where they can touch them.

Give the little five-year-old something that is his very own.

Have every boy to have his own little chair, and when absent leave a vacant.

Teach:

1. Self-control—teach by story.

2. Honesty.

3. Courage.

Worship is transcendent wonder.

To be constantly watched by some one always urges us to do our best.

From the known to the unknown.

The Graded Lesson contains the story for the Sunday.

Secondary organization or the ten age was handled by Mr. Vaughn.

He used the following outline which is helpful:

1. Department.

A. Intermediate.

a. Four grades—13, 14, 15, 16 yrs.

Characteristics.

Physical.

Mental.

Emotional.

B. Organization.

a. Separate department.

b. Strong class organization.

c. Provide for activities.

Delinite record of pupil.

Program emphasis on the program for class.

1. Assembling—president presiding.

2. Devotion—president presiding.

3. Business—president presiding.

4. Instruction—teacher presiding.

## Brose

The Photographer in Your Town.

The fourth session opened with the largest attendance yet.

"Teaching Temperance" was Mr. Vaughn's topic. He told us of the origin of temperance, how the license law came into existence as a war measure in 1862, Lincoln having twice refused to sign the bill until promised it should be repealed as soon as possible.

The Sunday School an Educational Institution. "What is Temperance?" A pertinent question. He answered by saying temperance is the control and right use of God's good gifts in service.

"What is Intemperance?" Answer: Intemperance is the uncontrolled and wrongful use of God's gifts in self-indulgence.

The best education gives the individual the best body, best mind and best soul.

How to reach temperance.

1. By the use of temperance truths in the Bible.

2. By science. Get Hudson's speech, "The Great Destroyer."

3. By pledge signing. 80 per cent. of all the young who sign are true at 16 years and 95 per cent. remain true throughout life.

4. By temperance lectures.

5. By posters.

6. By other facts.

He gave some very interesting figures from the United States revenue service.

Miss Dance told the story of "The Hunt for the Beautiful" in the way that brought out all the beauty in the story.

Then followed Mr. Joplin on "How the Organized Work Helps the Local Schools." He said, "The home is the first school and the parents the first teachers. He began with Robert Raikes in 1780, and William Fox, and told us how at King's Tavern the first Sunday School grew out of the combination of these two men. Of the first Sunday School convention, composed of 7 men and they representing three denominations, then the Free Teachers in the Sunday School and convention, The Free School and the Pared Post system. In 1872 at Indianapolis, Ind., Dr. Vincent Eggleston and Jacobus, getting together and from their efforts we have now our fine system of uniform and graded lesson series.

OH, HE LOVED HER

Gushing Epistle From Love-Sick Youth Found On the Street—But Jet and Nutt Spoil Pretty Romance.

Maysville, Ky., April 1, 1914.

My Dear Little Girl:

I hate to tell you this for fear of annoying you, but the time has come when I must seek your judgment on a serious question, the contemplation of which has caused me many nights of restlessness and corresponding days of anxiety. You will understand my reluctance in regard to this matter of such importance. When I tell you that many a young man is often driven to suicide by similar troubles, still I feel you should know the worst at once, for in sincerity it may mean life or death to me. I dare not tell my friends, the state my mind is in, except you, I feel that you might console me in my trouble. You know that my friends are to be relied upon, but in my distress, perturbation of mind, I can only go to you. I realize that I am asking a great deal of you, but I believe your winning heart will aid me. In doing this for me by aside your cares and give me the benefit of your friendship and loyalty and tell me from the very depths of your heart, do you think I will ever be as tall as Nutt?

Hoping to hear from you by return mail.

Love, yours,

ALGERNON D. SAPHHEAD.

Four New York Thugs Go To Death in the Electric Chair

Most Sensational Executions of the Age

Sing Sing Prison, Ossining, N. Y., April 13.—The four gunmen, slayers of Herman Rosenthal, the New York gambler, were put to death in the electric chair about 6 o'clock this morning.

They were brought into the death chamber and executed in the following order: Frank Crodel, ("Dago Frank") Frank Seidenschner, ("Whitey Lewis"), Harry Horowitz, ("Gyp the Blood"), and Louis Rosenberg, ("Lettie Louie").

Forty minutes passed between the time "Dago Frank" was strapped into the death chair until the last of the quartet of gunmen was pronounced dead.

"Whitey Lewis" died stantly declaring his innocence and he was denouncing a witness named Stannish when the electric current stopped him.

"Dago Frank" broke down during the hours preceding the execution and was in almost a complete state of collapse as he was led into the death room.

Death Signal at 5:36.

It was 5:36 o'clock when State Electrician Davis, after testing the electric chair, nodded to Warden Cirofici, who gave the signal to bring Crodel from his cell.

Bringing a crucifix in each hand, Crodel was brought into the death room and was quickly strapped into the chair. While Father Cashion murmured the prayer of death, which was responded to by "Dago Frank," the current was turned on.

Two shocks were given and "Dago Frank" was pronounced dead by Dr. Farr.

Frank Seidenschner was the second to be put to death. Two shocks were required before death came. He was saying, "I did not shoot, I did not shoot. Rosenthal, Stannish testified—when the electric current was applied, Harry Horowitz was the third to be executed. Two shocks were given him. He was pronounced dead at 6:02. He made no statement and was repeating a Jewish prayer at his death.

Louis Rosenberg was the fourth gunman to be brought into the chamber. He displayed an unusual power of resistance to the electric current and was not pronounced dead until after the third contact. He made no statement.

None Confessed His Guilt.

None confessed his guilt and none mentioned the name of Charles Becker, the former police officer, lieutenant, formerly of investigating the murder, but saved by Court of Appeals reversal.

Of the four who died, Frank Seidenschner made the only statement. Even he did not flatly assert his innocence.

"Gentlemen," he mumbled as they strapped him in the chair, "I did not shoot at Rosenthal, the man who said I did was perjured. For the sake of justice, gentlemen, I say I didn't. The witness Stannish—"

He did not finish the sentence. The strange harness had been adjusted and the current shot his body forward in the chair. He had meant to say that Stannish, a waiter and a witness at the murder trial, had lied; but death intervened.

All the bodies of the gunmen will be claimed by relatives. Mrs. Crodel remained with her son as late as 4 a. m.

# SPRING HAS COME

The Spring Goods this year are prettier than ever.

The variety here is very great and every purse can find what they are looking for.

We have sold more handsome dresses this year than ever before. There is a reason, and it is, anyone can buy the goods with lovely trimmings and have it made for one-half the price of a ready-to-wear garment and they can express their own individuality in the garment. Try our way: get two or three dresses for the price of one.

The Novelties are the latest to be found anywhere.

The Housefurnishing Department is filled with the goods you need, at attractive prices.

May Fashions, Designer and Quaterly are here.

## ELECTRIC SIGNS!

The distinguishing air of quality which a first-class Electric Sign gives to a store is the element which gives a sign its greatest value as an advertising medium and investment. The impression it makes is good. It blazes forth to the public that there is business enterprise, merchandise and methods up-to-date. It affects the entire atmosphere of the business district. The stranger says, "It is a live town," and publishes it abroad.

It is the Sign of the Times.
